***DETAILED ACTION***

1. This Office Action is the answer to the amendment received on 10/15/2007, which paper has been placed of record in the file.
2. Claims 1-2, 4-39 are pending in this application wherein claims 38-39 are new.

***Drawings***

3. The submitted drawings are acceptable for examining purposes.

***Response***

4. The amendment and arguments of independent claim 1 are persuasive; the Examiner maintains art rejections on claims 18-28 (as in 7/29/2007 paper) because these claims are directed to a physical apparatus comprising components as claimed by cited prior art (even applicants argue that main processor (101) does not receive cumulative information calculated by a computing component) – cited apparatus clearly comprises a receiver to receive information from another source – not necessary must be “accumulated information” to meet claimed limitation; this information is obvious with computing technologies.

***Conclusions***

5. Pending claims are allowable except claims 18-28; the applicants’ argument on 10/15/2007 is not persuasive on claim 18-28; accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
